Welcome to the NetLetter, an Aviation based newsletter for Air Canada, TCA, CP Air, Canadian Airlines and all other Canadian based airlines that once graced the Canadian skies.

The NetLetter is published on the **second and fourth weekend** of each month. If you are interested in Canadian Aviation History, and vintage aviation photos, especially as it relates to Trans-Canada Air Lines, Air Canada, Canadian Airlines International and their constituent airlines, then we're sure you'll enjoy this newsletter.

Our website is located at www.thenetletter.net Please click the links below to visit our NetLetter Archives and for more info about the NetLetter.

 NETLETTERS

 ABOUT US!

Note: to unsubscribe or change your email address please scroll to the bottom of this email.

NetLetter News

We have welcomed **187** new subscribers so far in 2019.

We wish to thank everyone for your support of our efforts.

We always welcome feedback from our subscribers who wish to share their memories and photographs.

Particularly if you have stories to share from one of the legacy airlines: Canadian Airlines, CP Air, Pacific Western, Eastern Provincial, Wardair, Nordair and

many more.

Please feel free to contact us at feedback@thenetletter.net

Coming Events

Sally DeMendonca has sent us this information of an ACRA event at Heathrow (LHR) -

ACRA Christmas Dinner and Dance (Join a Party)

Friday, December 20, 2019

Marriott London Heathrow Hotel, Bath Road, Hayes, UB3 5AN

Time: 1900 hrs – 0100 hrs

Rate: ACRA members: GBP 40.00

ACRA guests: GBP 49.00

Telephone +44 (0) 20 8917 2291

Sally.DeMendonca@AirCanada.Ca

Reader's Feedback

Ray Field sent this information with regard to the articles on the name change from Trans-Canada Air Lines to Air Canada -

Some-time between the end of May 1959 and September 1960, there was a Viscount in the 'C' Check bay (was it 'C' Check in those days?) in Winnipeg that was painted with "Air Canada".

In place of the normal, for that time, livery. I can remember strong denials at the time. The aircraft was repainted in Trans-Canada Air Lines scheme before it left the hangar.

Ray Field, Victoria BC

Reader Submitted Photos

Clare Ash, retired CP Air Sales Promotion Manager, Eastern Canada has sent us this photo of the Ottawa (YOW), Dorval (YUL) and Toronto (YYZ) Canadian Airlines International Retired Employees (**CAIRE**) meeting at Kingston.

No date provided nor identifications - anyone? - eds)

Women in Aviation

Convincing more women to pursue careers as pilots would help ease a supply crunch that could soon threaten even the largest airlines in the US, two pilot-workforce experts said.

"Half of the US population is essentially not participating in this pipeline," Michael McGee, a senior policy researcher with RAND, said during the Southwest Airlines Pilots Association International Conference of Pilot Unions.

Continuing the Time Travel: 75 Years in Events. Started in [NetLetter #1419](#).

1947 - Frozen meals take off.

When the new fleet of TCA North Stars arrived in 1947, these heated, pressurized aircraft came equipped with high-speed ovens that could heat frozen foods.

TCA is the first company in Canada to introduce full meals that are flash-frozen, a process invented by Clarence Birdseye, who was inspired after learning how to ice-fish with the Inuit in

Labrador.

As TCA stewardess **Anne McAllister** said at the time, "I defy you to tell the difference between these meals and the

ones prepared in your own kitchen."

Inaugurating service to Chicago.

The North Star was christened on July 1, 1947. The aircraft's increased power and passenger comfort opened the gates for Canada-U.S. routes to Cleveland, Seattle, Boston and Duluth, Minnesota.

Before the first flight to the Windy City, **Commander C.P. Edwards**, O.B.E., Deputy of Transport, addressed the crew:

"You will be flying the old Chicago Trail. It was made famous by the covered wagons and their oxen. Then it took days to make the trip from Detroit. After the railways came, the trip was made in some 10 hours. Now the aircraft are flying over this historic trail and you will make the same trip in a couple of hours."

HORIZONS

Found in the "**Horizons**"
magazine issue dated June 1987.

At the conclusion of the **9th Pionairs AGM** in 1986, **Ray White**, Pionairs Treasurer - 1987 to 1989, penned the poem below:

The Pionairs have wrapped up "Number Nine"
By marking half a century for our Line.
From my vantage point up front, I scanned each face:
Ten thousand years' experience in this place!
Someone from every airline trade is here
To join with friends from almost everywhere,

And celebrate careers with no regret
And past unpleasant things we all forget.
Looking out, and seeing folks I knew.

I thought of how each one had marked my life.
Of hundred met, I've liked all but a few,
And from the lot, years by, I found my wife!
At any time, had fate changed my career,
Some other person would be sitting here.
How seldom do we stop and realize
The way we influence each other's' lives?

In early years, we were so very few,
Each one around the Base you really knew, -
Mechanics, clerks, dispatchers, those that flew,
Collyer, Larson, English were the glue
That held it all together in those years,
And formed our Airline out of sweat and tears,
A minute's silence, when each stood alone,
To think of friends with names engraved in stone.
Some lost their lives in aeroplanes, -
Others through illness or old age,
But each a special contribution made,
And in our history, overflows a page.

You think, - "Did I come close to my potential?"
The answer is - "It is not real essential."
According to our talent, each one gives
A touch of color to the scene we make,
When we retire, the picture really lives
And all who view it, - satisfaction take,
For those of you who still have years to go,
We hope you fill our planes with happy fares,
We'll watch and see the airline grow and grow,
And eventually see you join the Pionairs!

We are a part of a very special nation
That long has lead in the field of aviation,
And even though the "Pionairs" are retired,
Whenever they get together they're inspired
To talk of planes and jobs and times gone by,
While wives stand back resignedly, and try,
With other wives, to find some common ground
That deals with a world with no airplanes around!

It's a happy group of people that I've seen.
The reason is very simple - just because
It is better to be an Air Canada "Has Been".
Than for you to be just another "Never Was"!

Yarmouth station closes.

Air Nova has been granted permission by the Canadian Transport Commission (CTC) to operate service between Yarmouth - Boston, Moncton - Boston (via Yarmouth) and Saint John - Halifax, effective August 1. 1987.

Air Canada has filed an application with the CTC requesting the right to terminate services between Yarmouth and Boston, the net effect being the closure of our Yarmouth station.

The company has had full and open discussions with the staff in Yarmouth. Eight employees accepted positions in Halifax, one went to Charlottetown, two retired and one resigned.

The regional airline, which is an Air Canada connector carrier in Atlantic Canada, uses propeller driven Dash 8 aircraft which have a 37-seat capacity.

Issue dated September 1987.

All the festivities of **Air Canada's golden jubilee** are but memories now and the company honored some of the employees who helped to make the 50th anniversary celebrations a success.

At the **Printing Bureau** are back row from the left:

Edward Thurston, David Burns, Gordie Bonner, Mike Robinson, Piedro Ferreira, Ralph Beffert, Roy Cadden, Ed Brochu, Moreau Forcucci, Don Lowe and Angie Stevens.

In front with **President Pierre Jeanniot** are, **Brenda Bartram, Carie Lennon, Merv Hernandez, Rena Brunelle, Monique Stonehouse and Josephine Farkas.**

At the Printing Bureau are back row from the left: Edward Thurston, David Burns, Gordie Bonner, Mike Robinson, Piedro Ferreira, Ralph Beffert, Roy Cadden, Ed Brochu, Moreau Forcucci, Don Lowe and Angie Stevens. In front with the President are, in the same order: Brenda Bartram, Carie Lennon, Merv Hernandez, Rena Brunelle, Monique Stonehouse and Josephine Farkas.

A few **YUL Cafeteria** employees are shown with the President.

From the left: **Bob Cleroux, Jeanniot, Angele Seguinot, Nicole Scott, Derrick Murphy, Heidi Frauenhoff, Darren Deshoyer, Felice Smeets, Gusset Morrison, Marc Boudreau, Gary Ainscow, Paul Klein, Alex Gal** and **David Nisbet**.

A few cafeteria employees are shown with the President. From the left are: Bob Cl  roux, Jeanniot, Angele Seguinot, Nicole Scott, Derrick Murphy, Heidi Frauenhoff, Darren Deshoyer, Felice Smeets, Gusset Morrison, Marc Boudreau, Gary Ainscow, Paul Klein, Alex Gal and David Nisbet.

At the Paint Shop are, from the left: D.G. Poirier, G  rard Dupont, Tina Schneider, Jeanniot, Ted Mainprize, Raymond Crawford, Daniel Lortie and John Phalz.

The **1988 Annual General Meeting for the National Pionairs** was held in Anaheim, California from May 19 to 22, 1988.

Officials for that year are:

Stefanie Mandzie, Winnipeg District Director; **Georgina Stevens**, Secretary; **Kay Napolitano**, Toronto Director; **Martin Betts**, Pension Representative; **Ken Esselmont**, Treasurer; **Frank Dunlop**, immediate past President; **Art Scott**, Ottawa; Director; **George Daman**, Montreal; **Tony Nuttall**, London, Ontario; **Gerry Chaffey**, Edmonton; **Gord Saunders**, Calgary; **Mike Lewicki**,

President; **Jack Charles**, First Vice-President; **Jack Motyer**, Second Vice President and **Doug Armitage**, Vancouver.

Missing from the picture are **John Innes**, Victoria who was away when the photograph was taken and **Tony Bruneau**, Halifax, who was unable to attend due to illness.

(Sadly the accompanying photo was of such poor quality - eds)

CP Air, Canadian People Gallery

Tribute to Former CP Air & Canadian Airlines Employees. A 4.45 minute YouTube slideshow.

CAIL passengers butt out.

Canadian Airlines International has announced a non-smoking program on all 66 of its fleet of B-737 aircraft operating scheduled flights in North America.

The decision, which comes four months after the company publically expressed opposition to forcing in-flight smokers to butt out, affects 99% of scheduled services in North America.

(Source: AC "Horizons" magazine issue September 1987).

Early 1947/8 CPA Information - Leg-up for Freighters.

The Bristol Freighter G-AGVC, which made a tour of the Americas in 1946, went straight into service with Canadian Pacific Airlines at the end of the tour. During the hard winter it was landing on the frozen Knob Lake, Labrador, in a blizzard and damaged an undercarriage leg.

A transatlantic telephone call to Bristol's followed, and a new leg was sent off to Heathrow over ice-bound roads. There the leg was put onboard a Trans-Canada aircraft, flown to Montreal, transferred to another aircraft which took it to Knob Lake, where it was fitted to the Freighter by mechanics working all night. The next day it was flown off the lake ice.

(Source: flightglobal.com/pdfarchive/view/1947/1947-0520.html)

Canadian Pacific Airlines have purchased a fleet of Canadair Four aircraft to operate on the company's new trans-Pacific services.

Operations over the North Pacific to Tokyo and Shanghai, and through the South Pacific to Australia via Hawaii, are also contemplated. The initial order is for four aircraft and spare parts, deliveries of which are scheduled to commence early in 1949.

Odds and Ends

The start of the jet-age.

The **DH106 Comet**, which would go on to usher in the jet age in May 1952 with BOAC, had been developed under a cloak of secrecy by de Havilland at Hatfield.

After several test runs on the Hatfield airfield during July 27, 1949, it took to the skies.

Comet 1 prototype (with square windows) at Hatfield, Hertfordshire in October 1949.

(Source: [wikipedia.org](https://en.wikipedia.org/wiki/De_Havilland_Comet))

The first international scheduled air service.

De Havilland DH.16, Aircraft Transport & Travel, probably Croydon 1920

On August 25, 1919, a small British built biplane took off from the Hounslow Heathland to LeBourget, Paris.

The first (daily) scheduled London - Paris Air Service was organised by Aircraft Transport and Travel, Ltd. A two-seat Airco DH4A biplane (G-EAJC) set out from Hounslow Heath Aerodrome. AT&T was founded in October 1916 approximately.

UK launches project to electrify Islander for short-hop routes.

A project to convert the nine-passenger Britten-Norman Islander to hybrid-electric propulsion for short-haul flights has kicked off in the UK. Project Fresson is led by Cranfield Aerospace Solutions (CAeS),

which plans to obtain and market a supplemental type certificate (STC) for the conversion.

CEO: Air France can learn from KLM's efficiency.

The Air France - KLM Group has seen a major improvement in operations since reaching labour stability, CEO Ben Smith said during a press conference in Amsterdam.

However, Smith told ATW that "Air France is not the most efficient main carrier in Europe and there is a lot of room to improve."
